

Prompts — Lab 02: Project Rules and a Sign-up Form for Every Course

Surface: Codex. Paste each prompt as written; change only what the lab tells you to.

PROMPT — Codex

Add a sign-up form for every course, following `signup-spec.md` exactly.

- A Sign up button on every course card opens one shared `<dialog>`, prefilled with that course.
- Fields: intake (from the course's intakes), full name, email, Singapore mobile, experience, allergies, a REQUIRED consent box and a SEPARATE, unticked newsletter opt-in.
- Validate in the browser with inline messages.
- If the allergy mentions nuts and the course uses nuts, show a warning (do not block).
- No backend: save to `localStorage`, show a reference number and a `mailto` link, and add `admin.html` that exports the CSV columns in `signups-format.csv`.

DONE WHEN every rule in `signup-spec.md` passes.
