

Prompts — Lab 07: QA the Whole Site with @Computer Use

Surface: Codex + Computer Use. Paste each prompt as written; change only what the lab tells you to.

PROMPT — Codex

@Computer Use Test the Cook & Bake site at
<http://localhost:8080> following qa-script.md.

Run it at 1440px and again at 375px:

1. Hero, course grid and the three filter chips.
2. Search "vegan" – expect CUL-208 only.
3. Sign up for BAK-104 with a bad email, then a valid one with a nut allergy.
4. Ask the assistant 3 questions from qa-script.md.

Record what you clicked, what appeared and whether it was visible without scrolling. Do not change any system or browser settings. Report defects in defect-template.csv format with a screenshot each. Do not fix anything yet.
